Summary

Hi, I'm Nitish A passionate developer building modern web applications and digital experiences that solve real-world problems.

As a freelance developer for over a year, I have designed and built a range of web applications—from simple websites to complex full-stack systems. I enjoy creating responsive, user-friendly interfaces that address real-world problems.

I am eager to continue growing as a developer by working on innovative projects, learning new technologies, and contributing to meaningful software solutions. I aim to work in a dynamic environment where I can apply my skills and gain more professional experience in full-stack development or software engineering.

TECHNICAL SKILLS

- **Programming & Frameworks:** JavaScript, HTML5/CSS3, React.js, Next.js, Node.js, Python, C++, Bootstrap
- **Databases:** MongoDB, MySQL
- **Cloud & DevOps:** AWS (Amazon Web Services), Azure, Docker
- **Version Control & Tools:** Git/GitHub, VS Code, Postman
- **Web Development:** Frontend & Backend Development, Responsive Design
- **Other:** UI/UX Design Principles, Technical Documentation, Collaborative Code Management

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Microsoft Certified: Azure Fundamentals

SOFT SKILLS

- Time Management & Organization
- Team Collaboration & Communication
- Problem-Solving & Analytical Thinking
- Self-Learning & Adaptability
- Effective Client Communication
- Project Management

DEPLOYMENT

- Netlify, Vercel

Experience

Bizloan India Pvt. Ltd.
Developer
05MAY/2025 - Current

- Developing and maintaining web applications for financial services
- Collaborating with cross-functional teams to deliver scalable solutions
- Implementing secure coding practices for financial data handling
- Optimizing application performance and user experience
- Full-stack web development with expertise in both frontend and backend technologies
- Database design, optimization, and management
- Experience with modern web frameworks and development tools
- Responsive web design and cross-platform compatibility
-

- **Freelance Web Developer:**
2022 - Present

s

- **Website Development:** Designed and developed responsive websites using HTML, CSS, JavaScript, and Bootstrap. Used React.js for creating interactive front-end user interfaces.
- **Backend Development:** Gained experience in server-side programming and integrated RESTful APIs.
- **Database Management:** Used MongoDB and MySQL to manage databases and performed CRUD operations efficiently.
- **Full-Stack Projects:** Completed full-stack applications including e-commerce platforms, portfolio websites, blog systems, and admin dashboards.
- **Version Control:** Used Git and GitHub for source code management and version control.
- **Deployment & Hosting:** Deployed projects using Netlify, Vercel, and Heroku.
- **Client Communication:** Interacted with clients, gathered requirements, managed timelines, and delivered projects successfully.

Education

Glocal University | Saharanpur
Bachelor of Computer Applications (BCA)
2016 to 2019

SSD Inter College Ghaziabad
10th in CBSE Board
2014

SSD Inter College Ghaziabad
12th in Uttar Pradesh
2016

Certifications

AWS Certified Cloud Practitioner
Microsoft Certified: Azure Fundamentals

Certificate of Completion in Web Design
Issued by: APTRON Training and Development
Date: 02-08-2022 to 08-09-2022
Verification: aptronnoida.in/verify

Certificate of Completion in MERN Development.
Issued by: SSDN Training and Development
Date: 06-03-2023 to 08-09-2023
Skilled: MongoDB Focused Node

Projects

Infinity (2024) Solo (Vs Code Extension)

- Role: Programmer and Project Manager

Advanced AI Assistant as a VS Code extension. That's a smart move because it makes it directly usable for developers inside.

RTCA - Real-Time Chat Application (2022)

- Role: Project Manager and UI Designer

Built a web-based real-time chat application using and Node.js, ensuring seamless communication.

Chatly - Android Chat App (2023)

- Role: Project Manager and UI Designer

Developed an Android-based chatting app that supports audio/video calls and text/image sharing

FaceConnect (2024)

- Role: Full-Stack Developer

Developed a Zoom-like video conferencing platform using Next.js, TypeScript, Clerk, GetStream, Shadcn, and Tailwind CSS, and implemented secure authentication and authorization with social sign-in and email/password methods Added features like meeting creation, real-time communication, recording, screen sharing, participant management, and scheduling future meetings Ensured a responsive UI for seamless cross-device experience and real-time interaction security.

Nitish Portfolio- Web Plus Android with Flutter (2025)

- Role: Solo Developer

Developed a single-page application using React.js, Rapid API, and Material UI 5. Implemented real-time YouTube video fetching and display functionalities. Designed an intuitive user interface with smooth navigation and dynamic content loading.
